Subject: Request for Transition to Online Classes Due to Extreme Heat Wave

Respected Sir,

I am writing this letter on behalf of the student body to respectfully request the college administration to consider transitioning to online classes for the remainder of the summer term. This request is being made in light of the prevailing and increasingly severe heat wave affecting Raipur and the surrounding region.

The current high temperatures pose significant health risks to students to attend classes in person. Exposure to such extreme heat can lead to heatstroke, dehydration, and other heat-related illnesses, potentially impacting the well-being and academic performance of everyone involved.

We understand and appreciate the benefits of in-person instruction. However, the current circumstances present an exceptional challenge that necessitates a temporary adjustment to our mode of learning. Transitioning to online classes would mitigate the risks associated with the heat wave, ensuring the safety and well-being of the college community while allowing academic activities to continue uninterrupted.

We urge you to consider our request seriously and take prompt action to safeguard the health and well-being of the college community. We are confident that this temporary measure will be in the best interest of all stakeholders during this period of extreme weather.

Thank you for your time and consideration of this important matter.

Yours Sincerely,

1st Year Students (2nd Semester)
